

The intelligent pet tag

Identified by QR Code

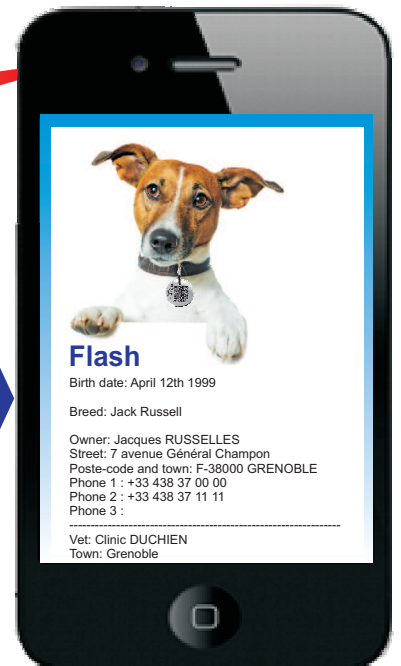

Created by Nom d'1 Chien®

Pet tag

**free service
without subscription**

**Instant
activation
via Internet**

**Viewing on
smartphones by
simple scan.**

Each coded tag is unique

**Pet medical records and personal details
are accessible worldwide.**

Technology evolves, so does Nom d'1 Chien®

A universal process for a unique pet tag

Thanks to the coded pet tag - a high-technology process - any lost or stray animal is quickly found.
Indeed, the information concerning your pet will never be out-of-date or incomplete.
You will avoid your pet being put in a pound and you will be reassured.

How does it work ?

Each coded pet tag is unique: it is connected by its engraving to a secure database completed only by the owner of the animal.

Any person who finds an animal wearing this coded tag is invited to:

- connect to **www.FlashTag.eu**
and enter the code engraved on the tag. (letters and/or figures)
- or**
- scan the QR code with a smartphone.

The animal's file appears on the screen which allows contact with the owner.

This pet tag can be read worldwide.

*Scanning a QR Code with a smartphone
is the fastest and most universal way to have
direct access to data.*

Benefits

An already engraved pet tag, available at your vet, pet shop or groomer.

A free service without any subscription.

Update wherever you are and as often as you wish:

- pet medical records, possible treatments,
- dietary specificities, allergies...
- owner's, vet's, groomer's contact details...

You alone decide the information that you wish to appear on the screen.

High quality pet tags

Stainless steel 18/10 guaranteed.

Long-lasting laser engraving.

High-strength split ring supplied with the tag.

Optional engraving on the back.

Equip your animal today. Ensure its safety.

Full-scale
models

EASY AND EFFICIENT

In order to protect your pet you must activate its coded tag.
A web connection and an e-mail address are required.

Connect to the website: **www.FlashTag.eu**
and let us guide you.

*If you don't have a computer you can entrust a friend
or a relative with the activation of your coded tag.*

During the registration stage you will have to enter your e-mail address and a password that you alone will know. This password will later allow you to change any necessary information throughout your pet's life.

It is not necessary to own a smartphone.

You own a smartphone and you want to download the application in order to read all QR codes:

- with your mobile go to your applications store (App Store, Android Market, etc...) and download the compatible application.
- or, from your browser, download the free app directly from the following websites:
(indicative and non-exhaustive list)
 - www.get.neoreader.com
 - www.i-nigma.mobi
 - www.m.mobiltag.com

How to read a QR Code:

From your smartphone, launch the code recognition application and point your phone's camera at the QR code, then the content of the related information will instantly appear on your screen.
